## Severe Weather Outlook Wednesday, June 07, 2017

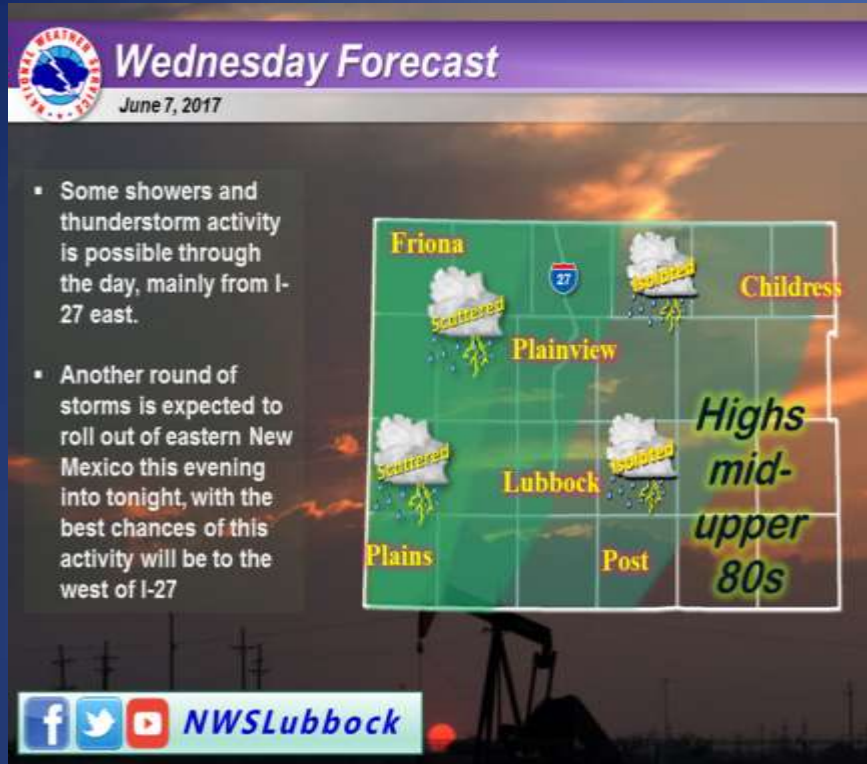

National Weather Service  
Storm Prediction Center

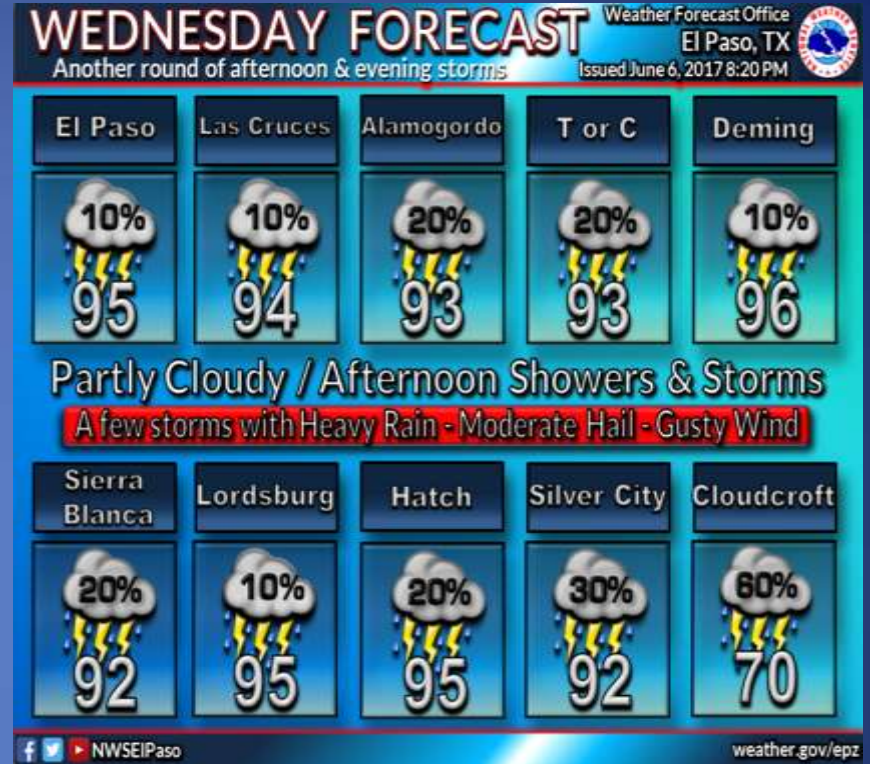

<http://www.spc.noaa.gov>

# Hazardous Weather

Your Wednesday temperatures will be near average, with highs mainly in the mid 80s to around 90. A few thunderstorms are possible during the day almost anywhere across the area. Then this evening, a thunderstorm complex may roll southeast out of New Mexico into western portions of the South Plains area. Strong winds gusts will be possible with this activity

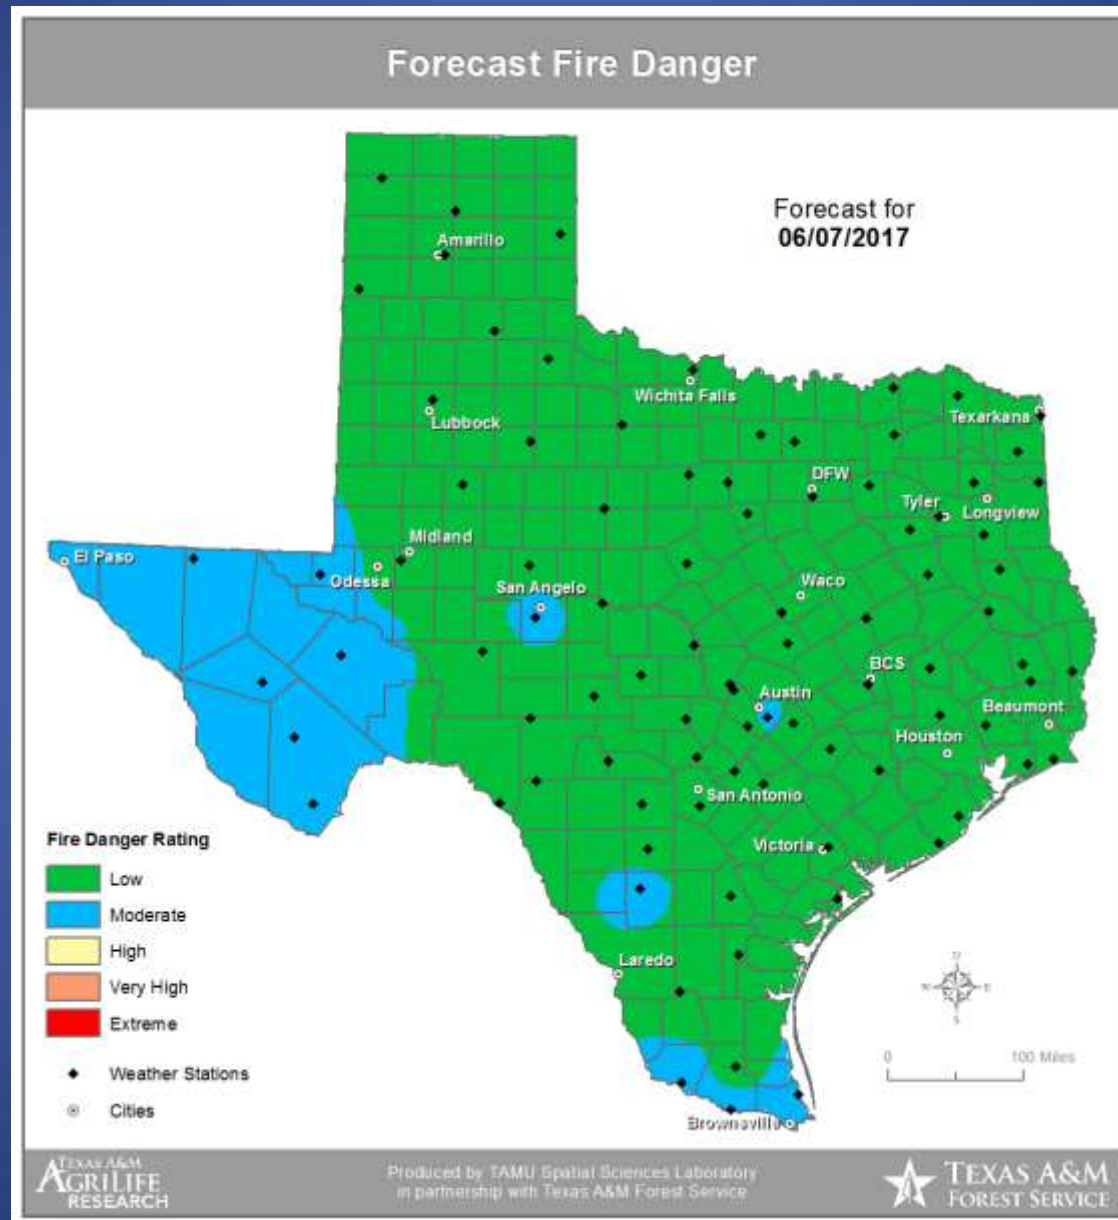

An unusually moist airmass remains parked over the Borderland region again for Wednesday. Daytime heating will lead to another round of area-wide afternoon and evening shower and thunderstorm development across Southern New Mexico and Far West Texas. A few storms may become strong and produce gusty winds, moderate hail, areas of heavy rain, and local blowing dust

# Weather Warning/Advisories Issued

DATE	WARNING TYPE	LOCATION
06/06/17	Flood Warning Continues	Neches River Near Neches in Anderson County; Angelina River in Angelina County; Navarro Henderson Counties; Trinity River affecting Henderson & Navarro Counties; Sabine River affecting Newton and Orange Counties;
06/06/17	Severe Thunderstorm Warning	Hudspeth County
